BATCH – 5 (Ai & MI)

Experiment -1

Q1) Implement the following things on PyTorch:-(Python)

1) Explore the tools with different options like

- **installation**
- **tensor creation deletion**
- **tensor manipulation**

The screenshot shows a Jupyter Notebook environment with the following code and output:

```
import torch as tf
```

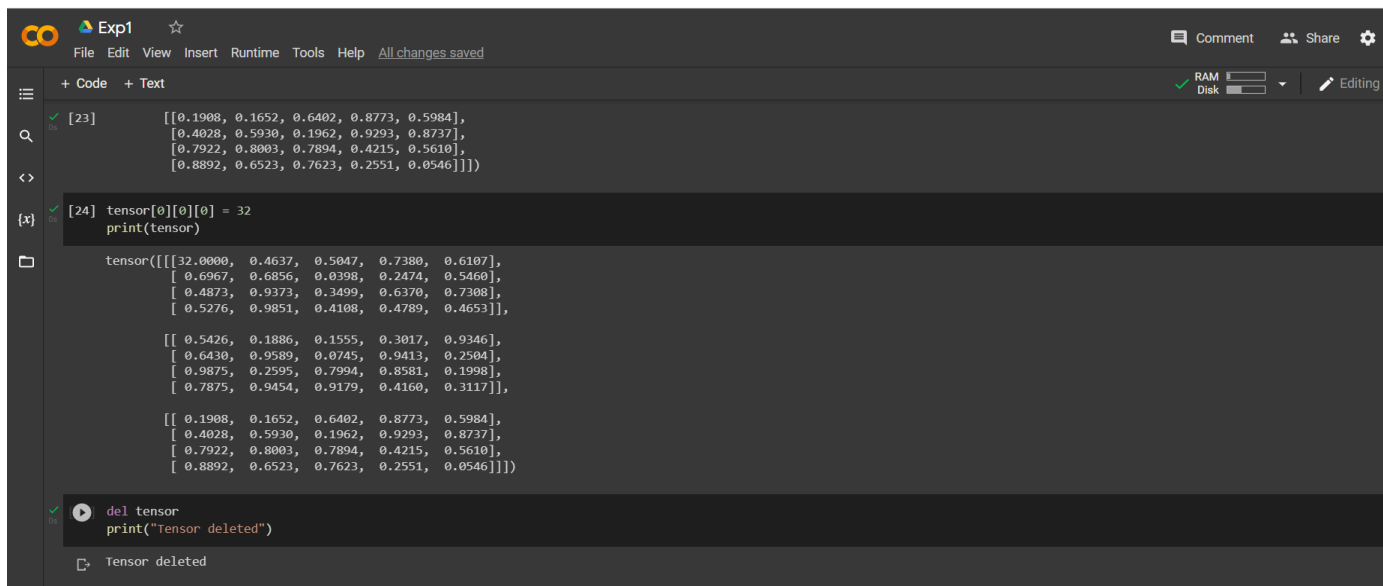

Tensor creation, deletion and manipulation

```
tensor = torch.rand(3,4,5)
print(tensor)
```

```
tensor([[[[0.4806, 0.4637, 0.5047, 0.7380, 0.6107],
          [0.6967, 0.6856, 0.0398, 0.2474, 0.5460],
